ABOUT COMPANY

MarriottPalaceGeneral Trading & Contracting Co. W.L.L, established in 1985, has steadily grown with a strong reputation for high-quality construction and reliable service—reflected in the large share of repeat business we receive. Our in-house expertise spans design, cost control, value engineering, and full project management across industrial, commercial, and retail sectors. As we expand, we continue to build trusted relationships.

We adhere to project schedules and welcome continuous feedback from our team, partners, and subcontractors. Our construction professionals provide a single-source solution for all construction needs—from restoration and site preparation to new builds and renovations—delivering quality results on time and within budget. With deep industry knowledge, we work closely with clients to understand their requirements and offer innovative, cost-effective solutions for fully engineered projects.

VISION

To be Kuwait's leading construction company, recognized for professional presentation, superior workmanship, and exceptional service. We strive to meet and exceed customer expectations by delivering safe, secure, and high-quality solutions with a commitment to complete satisfaction.

MISSION

Our mission is to make every project a positive experience. Through skilled workmanship, careful attention to detail, and a genuine commitment to doing things right, we provide reliable civil, electrical, and mechanical services our clients can count on. We're here to deliver real value, honest service, and results that stand the test of time.

Core Services

1. General Construction

2. Electrical Work

3. Warehouse Rental

4. Interior Design

5. Mechanical work

6. Steel and Structural
fabrication

Project Expertise

At Marriott Palace General Trading & Contracting Co., we deliver construction solutions that combine technical excellence with a client-focused approach. With decades of experience, we understand what it takes to bring a project from concept to completion—professionally, efficiently, and with uncompromising quality.

Our team is skilled across multiple sectors, including industrial, commercial, and residential works. We focus on building safe, functional, and sustainable environments that support our clients' operations and long-term goals. Every project benefits from our commitment to clear communication, responsible management, and reliable delivery.

CIVIL CONSTRUCTION

STEEL FABRICATION

STONE WORK

Quality Assurance

Strict Standards

We hold ourselves to high standards and follow clear procedures to make sure every detail is done right.

Regular Audits

We review our work often, checking and double-checking to keep quality on track and continuously improve.

Skilled Workforce

Our team is made up of dedicated professionals who bring experience, craftsmanship, and pride to every project.

Modern Equipment

By using up-to-date tools and technology, we work more efficiently and deliver results that stand the test of time.

Safety Standards

Safety is a core priority at Marriott Palace General Trading & Contracting Co. We follow strict safety protocols on every project, supported by regular site inspections, risk assessments, and clear operational guidelines. Our workforce receives ongoing safety training to ensure they understand best practices and can respond effectively to potential hazards. Certified safety officers oversee each site, ensuring full compliance with local and international safety regulations.

We maintain all equipment and provide proper PPE to protect our team and reduce the risk of accidents. Every project is equipped with emergency procedures, evacuation plans, and first-aid resources to ensure quick and effective response in unexpected situations. Most importantly, we promote a strong safety culture where employees are encouraged to speak up, report hazards, and stop work whenever something feels unsafe. This commitment allows us to deliver projects with confidence, reliability, and care for everyone involved.

Innovative Solutions

1. Green Building

We focus on environmentally responsible construction by using energy-efficient materials, reducing waste, and choosing eco-friendly designs. Our goal is to build spaces that are healthier for people and better for the planet.

2. Smart Design

Our smart design approach emphasizes practicality, efficiency, and user comfort. Through thoughtful planning, optimized layouts, and modern technology, we improve performance, reduce costs, and create spaces that work better for our clients.

Client Relations

At Marriott Palace General Trading & Contracting Co., we believe great projects start with great relationships. We take the time to truly understand our clients—their goals, concerns, and expectations—so we can support them every step of the way. Clear communication, honesty, and genuine care guide how we work.

We stay connected throughout the project, keeping clients updated, listening to feedback, and making sure they always feel heard and valued. To us, clients aren't just business partners—they're long-term collaborators we're proud to work with. This personal, trust-driven approach is why many of our clients choose to return to us again and again.

Skilled Workforce

Our strength lies in our highly skilled workforce, made up of certified engineers, technicians, and craftsmen who bring extensive experience to every project. With a strong commitment to quality and continuous training, our team stays up to date with the latest industry standards and technologies. This expertise allows us to deliver precise, reliable, and efficient results—ensuring every project is completed to the highest level of professionalism.

Market Presence

- We've built a strong reputation across Kuwait through years of consistent, quality work
- Our projects serve communities, businesses, and industries throughout the country
- Clients trust us because we understand local needs and always deliver with care
- We maintain close partnerships with public and private sector clients
- We're proud to support Kuwait's growth and development with every project we complete

1. Global Projects

2. Local Partnerships

3. Regional Expansion

4. Industry Recognition

Sustainability Goals

1.

Eco Materials

We prioritize the use of environmentally friendly, durable, and energy-efficient materials that reduce our impact on the environment while maintaining high project quality.

2.

Waste Reduction

Through careful planning and responsible handling, we work to minimize waste on every project—reusing, recycling, and managing resources more efficiently.

3.

Renewable Energy

We support the use of renewable energy solutions such as solar systems and energy-efficient technologies to help create cleaner, more sustainable buildings.

MAJOR PROJECTS

US Air force

We design & built steel Buildings, portable cabins, firefighting systems, generator installation, electrical works, HV, MV & LV. Asphalt laying in 2003- 2008 in Ali al Salem Air base.

Larsen & turbo Limited

Cable laying (Cable tray/ Fabrication Stand/ earthing works – NDP – KAFCO in 2008. OFC cable laying and termination in Ahmadi. KNPC to airport KAFCO (68 Km) and supply of skilled & semi- skilled manpower.

Avenue Shopping Mall

Construction workers inside a shopping mall. Skilled manpower performing finishing tasks.

RICAFCO

Concrete blockwork , Wall plastering and finishing works at University

AlGhanim International General Trading & Contracting Co.W.L.L

Cable trays and covers in power plants. Large industrial gas turbines (125 MW units). Electrical installation works in power stations & Technicians installing cable trays

KNETCO

Excavation for utility lines, Handhole installation. Conduits/pipe laying. Fiber optic cable pulling and termination

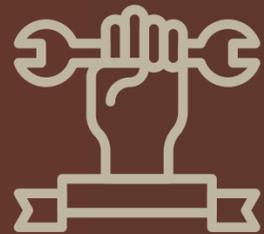

SIEMENS

- Cable tray installation in power stations
- HT/MV/LV cable pulling
- Subiya Power Plant exterior view
- Control room or switchgear installations
- Fiber optic cabling in power plants

PWC Warehousing Project

Warehouse construction sites. Interior storage racking systems. Manpower teams working on warehouse installations

AL –Ghosan International General Trading & Cont. Co

- Skilled and semi-skilled manpower on site
- Large-scale power plant construction work
- Electrical and mechanical teams installing equipment

KUWAIT UNIVERSITY

Concrete blockwork, plastering, and finishing works were carried out as part of the broader construction and development of the university campus.

KNPC

We carried out borehole drilling and soil investigations for KNPC in collaboration with KCCEC, ensuring accurate results, safe operations, and full compliance with project standards.

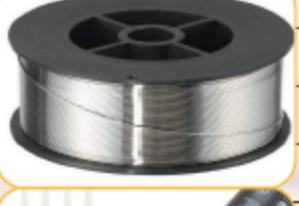

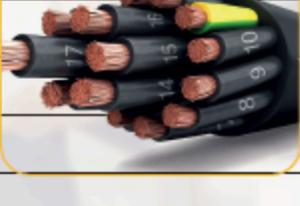

PRIVATE VILA PROJECT

We supplied, fixed, and carried out the complete installation of high-quality epoxy terrazzo flooring. Our work included surface preparation, precise application, and final finishing to ensure a durable, seamless, and elegant floor that enhances the overall aesthetics of the villa.

Supply of Industrial Consumables (Mechanical, Electrical & Plumbing)

Carbon steel pipes (seamless / ERW)		Bearings	
Stainless steel pipes (SS304 / SS316)		Mechanical seals	
Alloy steel pipes		O-rings	
Pipe fittings (elbow, tee, reducer, cap)		Couplings	
Flanges (RF / RTJ / FF)		V-belts	
Stud bolts, nuts & washers		Shafts sleeves	
Gaskets (spiral wound, RTJ, CNAF, rubber)		Filters & strainers	
Expansion joints (rubber / metallic)		Welding electrodes (E6013, E7018 etc.)	
Ball valves		TIG / MIG wires	
Gate valves		Flux	
Globe valves		Grinding wheels	
Check valves		Cutting discs	
Butterfly valves		Anti-spatter spray	
Needle valves		Cleaning solvents	
Safety & relief valves		Rust remover / inhibitors	
Valve actuators (manual / pneumatic - accessories)		Sealant	
LV power cables (0.6/1 kV)		Electrical grease	
MV cables (6.6 / 11 / 33 kV)		Cleaning spray	
Control cables		Labels & identification	

◆ APPLICABLE STANDARDS (Typical)

- API / ASME
- IEC / IEEE
- ASTM
- ISO
- NACE MR0175
- KOC / KNPC project specifications

Instrumentation cables	GI pipes	
Fiber optic cables	Copper pipes	
Fire resistant / FRLS / LSZH cables	PPR / HDPE / UPVC pipes	
Cable glands (Brass / SS / double compression)	Pipe fittings & couplings	
Cable lugs (Cu / Al / Bi-metal)	Valves (ball, gate, NRV)	
Ferrules	Flexible hoses	
Heat shrink & cold shrink kits	PTFE tape	
Cable ties (Nylon / SS)	Thread sealant	
Cable markers & tags	Rubber insulation	
Cable trays (GI / SS / FRP)	Thermal insulation	
Cable ladders	Adhesives	
Trunking	Sealants (silicone, fire-rated)	
Conduits (GI / PVC / HDPE)	Duct gaskets	
Flexible conduits	Fasteners & anchors	
Tray covers & clamps	Dampers (accessories)	
Earthing cables (Cu / GI)	Filters (air / HVAC)	
Earth rods	Vibration pads	
Earth clamps	Condensate drain accessories	
Earth bars	Fasteners (CS / SS / GI)	
Exothermic welding kits	Anchor bolts	
Lightning protection accessories	Chemical anchors	
Insulation tape	Marking tapes	
Fire stop	Safety signs & tags	
Materials	PPE
